EASE OF USE

Drag-n-drop shifts where you need them. View schedules by 1,2,3,4,5 or even 6 weeks at a time.

Use copy quick keys for copy, cut and pasting of schedules.

SAVES TIME

Fill last minute shifts in seconds. Email or text all qualified staff of a last minute shift need.

Print and send the schedule to your staff

COLLABORATION

Email and Text messaging. Communicate with your employees when their schedule is published, there's an opportunity to pick up a shift, or swap a shift. Avoid passing paper for Schedule Preference, Hours Preferences and Schedule change requests using the Employee Self Service module

- Ease of Use--Saves Time
- Identifies Coverage, reduces overtime, balances workloads
 - Reduction in costs by eliminating over scheduling
 - Accuracy in scheduling
 - Visibility to labor shortages
- Compliance – ensuring the correct employees are scheduled to meet operational requirements
- Companywide visibility to scheduling
- Streamlines scheduling process
 - Elimination of manual process
 - Ability to change on the fly
- Enhances existing systems to do more

Quickly cover shifts using the Best Fit wizard. Just select a schedule or type in the times and position. The wizard will list those employees that can work the position, time and are within their weekly hourly allowance or overtime. See at a glance if you have too many or too few shifts on a given, day, shift, position or hour using the Schedule Bar feature.

Segregate scheduling into workgroups for quick validation of coverage and departmental demands. Create Employee Filtering using the advanced Query feature. Filter the displayed employees using full Boolean logic expressions using the Wizard.
